out competition.

for Beveridge says: "How shall the rity of the last five years be consist the real question of the came. New markets for American production is the only answer to this came." ants the duty on raw sugar coming om Cuba reduced. The sugar trust is retected in the American market from reign competition by what is known as e differential duty upon refined sugar, he Democrats in the house, aided by me forty Republicans, passed a bill relicing the duty upon raw sugar coming om Cuba 20 per cent and repealing the freential duty upon refined sugar. The remer provision was to the advantage of a trust to the extent of 20 per cent and might result in raising to the Cuban anter slightly the price of his raw gar. The repeal of the differential duty as to the disadvantage of the sugar ust, tending to destroy its monopoly did to cheapen 1.3 price of refined sugar the American people. When this bill reached the senate, the ministration and the Republican leads were unwilling to permit it to pass the form in which the bill came from a house. The sugar trust, in other bads, would not permit this party which controls to repeal the differential duty on refined sugar, which would tend weaken and destroy its monopoly.

What Sugar Trust Wants.

What Sugar Trust Wants.

What Sugar Trust Wants.

It seems quite plain that the chief mozert Rs influence for the reduction of the duty upon raw sugar coming from Cuba is that the sugar trust may receive this advantage. It is rather their interest in monopoly than their desire for the relief of suffering Cuba that inspires their activity. The demand for expanded marksts has behind it a similar purpose. It is not expanded markets for our agricultural products, because Great Britain and Europe must purchase for consumption whatever we have of those products to supply. It is expanded markets for the things which the trusts produce. The Republican party erects a tariff barrier giving these trusts a monopoly of the home market and invites them to exact of the American people prices from 50 to 100 per cent higher than to foreigners; then, while giving them this advantage and monopoly, Invites them to sell like products to foreigners in competition with the rest of the world.

To thus enable the trusts to discriminate against the American party would have the Republican party would have the Republican

Our Trade With Philippines.

Will Win in November.

"Talk about the party being dead! It will rise up in its majesty and win at the poils in November. I wish I could speak of them all—all the grand, noble and faithful Democrats who have worked so hard and steadfast for the party in times past and who will redouble their efforts this fall. I wish I could call them all out by name, and pay a tribute to them, but I can't. I have only spoken of a few, just to show you that the party is not dead; that it is very much alive, and is going to make a fight this fall that will be a

PLATFORM OF THE DEMOCRATIC PARTY OF UTAH HENDERSON IS

Wie, the representatives of the Democratic party of Utah, in convention assembled, reaffirm our faith in the Declaration of Independence and our we call attention to the sembled, reaffirm our faith in the Declaration of Independence and our allegiance to the constitution of this republic.

FAVOR GOVERNMENT BY CONSENT OF GOVERNED.

We reiterate that all governments derive their just powers from the con-sent of the governed, and maintain that no nation can long endure which is half republic and half empire. CONSTITUTION FOLLOWS THE FLAG.

We hold that the constitution should follow the flag: that the flag is but the symbol of the free government which rests upon the constitution, and that where the constitution may not extend the flag should not remain. CONGRATULATE CUBA-FAVOR ASSURANCES TO PHILIPPINES.

We congratulate the people of Cuba upon entering the family of Philippines would have prevented any misunderstanding with their that such a declaration would have ended the sanguinary conflict at any during the four years it has been waged in the archipelago.

DEMOCRATIC EXPANSION VS. REPUBLICAN IMPERIALISM.

We are opposed to the policy of territorial aggression which has embroiled the republic in unnecessary and expensive warfare, sacrificed the lives of many of its noble sons, and placed this government in a position where it cannot extend aid or sympathy to weaker peoples struggling for independence against

tend aid or sympathy to weaker peoples stringgling for independence against superior wealth and numbers.

We believe in the Democratic doctrine of expansion, which has added to our original domain every foot of continguous territory over which the flag floats and the constitution extends. We favor the peaceful acquisition of territory when the needs and welfare of this republic are first considered. The Democratic party has always stood for the legitimate and constitutional expansion of trade and territory, while the very formation of this republic is a protest against the colonial policy of the present administration.

REPUBLICAN INSULAR POLICY DENOUNCED

REPUBLICAN INSULAR POLICY DENOUNCED.

We hold that the Filipinos cannot become citizens without endangering our civilization; that they cannot be subjects without jeopardizing our form of government; we believe the United States should assist the Filipinos to establish for themselves an independent government, protecting them from outside interference, and securing to this country such trade relations and naval rights as may be advantageous to American interests in the Orient.

We denounce the Philippine policy of the Republican party as a record of costly blunders and criminal vaciliation.

The late insurrection, caused and perpetuated by fear and uncertainty among the natives, engendered by the stupid, persistent and wholls indefensible failure of the Republican party to declare its policy with reference to these islands, has already led to the sacrifice of thousands of lives, made a fourfold increase of the army, immensely swelled our pension lists and cost more treasure than would be necessary to double the endowments of all the universities and colleges of the country, and provide for the conserving and distribution of water over the entire arid west.

The permanent retention of these islands as colonial dependencies must be.

The permanent retention of these islands as colonial dependencies must be ur most vulnerable spot in time of war, as they were with Spain, and, in time of peace, will ever remain an anxious burden upon the people of America, equiring the fortification of coasts, the improvement of rivers and harbors, the maintenance of garrisons for the overawing of the nation, and such protection from foreign foes as will cost the taxpayers of this country more than can ever flow into the coffers of the trusts and syndicates that will surely control

We are opposed to militarism. It is expensive, unnecessary and inimical to free and popular government. We favor a small standing army, a well organized militia, and a navy sufficient to protect our coasts and commerce. We point with pride to the record of our volunteeers in the war with Spain, and offer it as evidence that national defense may be safely entrusted to our citi-

onvention had showered upon him that PRAISES FOR THE AMERICAN SOLDIER.

We hold in reverence the valor, patriotism and services of the American soldier and salior, and particularly those of Utah, whose names are indelibly written on the pages of our national history. We charge the Republican party with shamelessly applying to the whole American army criticisms which have been made against certain unworthy officers. We have none but words of praise for the gailantry, devotion to duty, intelligence, moderation and humanity that have characterized the great bulk of the officers and enlisted men of the army in their operations in the Philippines, and only condemnation for the attempt of the Republicans to conceal such violations of the rules of civilized warfare as have occurred. The only way to protect the good name of the army and navy is to root out evils and dismiss wrongdoers. This the Democrats in congress have insisted upon, and in every instance the case has been so clear that the Republican administration was forced to take some action in reproof of the officials arraigned. We hold in reverence the valor, patriotism and services of the American sol

APPROVE MONROE DOCTRINE.

We approve of the Monroe doctrine, which forbids the acquisition of American territory by European powers, and adhere to the Jeffersonian policy of "peace, commerce and honsest friendship with all nations, and entangling alliances with none."

TRUSTS A MENACE TO THE PEOPLE,

We believe in equal and exact justice to all men and special privileges to none. The organization of trusts to control the supply of money and all the great industries of the country has become a menace to the welfare and liberty of the people. The monopoly of these trusts is strengthened and maintained by Republican tariff legislation framed chiefly in their interest and to afford the protection. We call attention to the fact that articles produced by the leading trusts of this country are shipped abroad at considerable expense and sold to foreign consumers at a lower price than is charged the American consumer at home.

SUGAR TRUST AND CUBA.

The chair made the announcement that Frank J. Cannon had been elected

chairman of the state committee, and that he would address the meeting.

The Republican policy is to give the trusts the advantage of free trade in articles which the trusts consume, and to place protective duties, to the point of prohibition, upon all articles competing with what the trusts have to sell. Free raw sugar is demanded by the sugar trust. The differential duty upon refined sugar is for the protection of the sugar trust. The Rapublican administration is vociferous in its demands that raw sugar be admitted free of duty from Cuba for the benefit of the trust, but is still more insistent that the differential duty upon refined sugar shall not be removed. The latter would inure to the benefit of the consumers of sugar throughout the United States, while the former would operate mainly to the advantage of the American Sugar Refining company.

1500. And the two twelves is 750,286 N. Baskin, true to what he believes is 750,286 right and ever contending for the triumph of the Democratic party. And David Evans, with his fine record; S. R. Thurman, the old sage of Democracy, whose faithfulness is known through and a sunt during total exwere \$4. are malicities are malicities. Not Even Demoralized.

We are in favor of admitting free of duty all goods and provided with trust-made articles, and we demand the exercise of all legitimate and constitutional power, both by the state and federal governments, for the supports to the state. And E. W. Wilson, who can always be counted upon to take a stand for the party. And W. H. Dale, no truer man ever came into the state than he.

Not Even Demoralized.

We call attention to the operation of the smelter trust in this state, who exorbitant charges have been an unjust burden upon the ore-producer, and we hold the Republican state administration responsible for its failure and refusal to enforce the state law against trusts. INTERSTATE COMMERCE COMMISSION.

We denounce the Republican party for refusing to vest the interstate commerce commission with power to enforce its decisions against railroad discriminations, by means of which certain trusts are aided in perpetuating their mo-

EXCLUSION OF COOLIE LABOR.

We favor the exclusion of all coolie labor from competition with American workingmen by immigration laws as well as by refusing to include among our population Chinese or other inhabitants of the Orient. We endorse the Chinese exclusion bill presented to congress by the Federation of Labor, and condemn the Republican majority for rejecting this measure and substituting the present weak and inadequate law. And we are also opposed to the importation of pauper labor from southern Europe, to which evil we attribute the present great and deplorable strike in the anthracite coal fields of the east. ARBITRATION FOR LABOR DIFFI CULTIES.

We believe in the organization of labor for the protection of its rights, and advocate the adjudication of all differences between labor and capital by a non-papilsan board of arbitration, whose decisions shall be enforced by the national government.

SILVER AND GOLD FOR MONEY.

We endorse the abiding principles embodied in the Kansas City platform. We hold to the quantitative theory of money, the truth of which has been established by the enormous output of gold mines and the avidity with which the increased supply of standard money has been drawn into the channels of trade, disproving the Republican claim in 1890 that there was then money enough for all the demands of business.

FOWLER BANK BILL DENOUNCED.

We denounce the Fowler bank bill, by which the Republican majority in congress proposes to convert all silver money now in circulation into interest-bearing debt, to be retired at the pleasure of the bankers. It is an effort to counteract the increase of the gold supply, a blow at one of the leading industries of the west, and the crowning act of the money power in this era of ncentration of capital. TO RECLAIM THE ARID REGION.

We favor the reclamation of our vast arid region, and the speedy establishment of £ system of reservoirs and canals to store and distribute waters now going to waste; and piedge our nominee to congress to work for the projection of our watersheds and forest reservations against the blight of indiscriminate grazing which destroys the range, pollutes the streams and transforms the country into a desert. FAVOR ELECTION OF SENATORS BY PEOPLE.

We favor the election of United States senators by direct vote of the and will support the adoption of a constitutional amendment to this end. LAMENT DEATH OF PRESIDENT.

We deplore the death of our late President McKinley, and extend to his bereaved widow our sincere condolence. DENOUNCE ANARCHY.

We denounce anarchy in all its forms, and ask for a strict enforcement of our immigration laws to the exclusion of this class of foreigners from our

As an example of Republican false pretense and dishonesty, we invite attention to the Uintah Indian reservation, whose opening Republicans pretend to favor. In 1898, through the efforts of the Democratic representatives in congress, a law was passed to open the reservation to settlement, and providing for a commission to treat with the Indians to that end. A conspiracy was at once formed to defeat the law and to procure a lease of a large portion of the reservation to the conspirators. Among them, the present postmaster general, the present governor of the state of New York, Judge Anderson, recently appointed by President Roosevelt to be a judge of the District of Columbia; Howell P. Myton, the present Indian agent at the reservation, and others. This corrupt by President Roosevelt to be a judge of the District of Columbia; Howell P. Myton, the present Indian agent at the reservation, and others. This corrupt scheme to defeat a law of congress by persons holding official positions under the Republican administration was called to the attention of President Roosevelt more than six months ago, together with conclusive proof of the guilt of the parties concerned. Notwithstanding he has so long been in full possession of the proof showing their guilty participation, Myton is still retained as Indian agent, Payne was appointed postmaster general, and Anderson put upon the judicial bench in the District of Columbia. We call further attention to the fact that, although the provision inserted in the Indian appropriation bill, passed at the last session of congress, directed the secretary of the interior immediately to send an inspector to obtain the consent of the Indians to the opening of the reservation, no step in that direction has been taken, and evidence accumulates that the same conspirators who defeated the execution of the former act in order to obtain the reservation for themselves, will prevent the execution of the present law.

We condemn the Republican legislature for its failure to carry into effect the express will of the people by falling to enact into law the constitutional amendments relating to the initiative and referendum.

REPUBLICAN DOUBLE-DEALING.

REPUBLICAN DOUBLE-DEALING.

We cite the failure of the Republican state convention to make any reference in its platform to pending legislation of vital importance to the silver miners and beet-growers of Utah, as an evidence of cowardice, and of a desire to mislead the people concerning its attitude upon these issues. We condemn the Republican party for hypocrisy in dealing with the people of Cuba, and for seeking to aid them at the expense of the people of Utah.

THE REPUBLICAN REPRESENTATIVE.

We call attention to the fact that the Republican representative of Utah we call attention to the fact that the Republican representative of Utah in congress, upon every leading measure relating to tariff and finance, found it necessary to stand and vote with the Democrats of the house and against the administration, in order to conserve the interests of the people of Utah.

We endorse the efforts of our Democratic senator, Hon. Joseph L. Rawlins, we endorse the efforts of our Democratic senator, Hon. Joseph L. Rawlins, in his attempt to procure legislation by congress granting the relief and compensation to the Indian war veterans of Utah for patriotic services rendered by them in protecting the lives, property and homes of our people during the early settlement of the commonwealth.

RECORD OF JOSEPH L. RAWLINS.

We congratulate the people of Utah upon the magnificent record made by our senior senator in congress during the past six years. No constituency could

We congratulate the people of Utah upon the magnificent record made by our senior senator in congress during the past six years. No constituency could have been better represented. His broad statesmanship has been such as to command recognition allike from his colleagues and the press of the entire country. He has taken high rank among the leaders of the greatest law-making body of the world. Honest, vigilant and aggressive, he has been not only a senator from Utah but of the United States.

The Democratic party came into existence with the nation. It will survive while the principles of popular government animate the hearts of men. It has witnessed the rise and fall of a dozen other political parties. It was an organized protest against the monarchial tendencies of the old Federal party. It has always championed the rights of the masses as against the encroachments of centralized wealth and power. To it will the people again turn and ask to be saved from the menace of plutocracy and imperialism.

Speaker Henderson has addressed the following letter to C. E. Albrook of El-dora, Ia., chairman of the notification

"My Dear Sir-I have never answered

the kind notice communicated by you and your associates advising me of my nomination for the eleventh time by acclamation as Republican candidate for congress for the Third congressional district of Iowa. Reported conditions in the public mind in my district upon ublic policies induced me to take this delay. Since my return to the district I have made a careful study as to the entiment in the district and state, and believe that there is no little senti-ment and a growing one among Repub-icans that I do not truly represent cline to accept the nomination so gra-clously and enthusiastically made. I clously and enthusiastically made. have devoted twenty of the best years of my life to the service of my people and my country and have fought for what I believed to be best for the farm-er, the laborer and the business inter-estsof this district and state. I am grateful for the devotion that has ever been accorded me and to the hour of my death will hold in a grateful heart the memory of that devotion. I will been accorded me and to the hour of my death will hold in a grateful heart the memory of that devotion. I will later on give in some detail my views and convictions on our conditions and on public questions, and state my reasons why the Republican party and its policies should continue in the confidence of the voters of the United States and why the doctrines of the Democracy should find no lodgment in the faith and teachings of the Republican party.

"Year taily Nours."

Sharkey at the invitation of one of the women. Mr. Fish continued to treat women. Mr. Fish continue

tute Navajo Indians in that vicinity, and that Howard R. Antes of Aneth and Jens Nielsen of Bluff be designated to assist Samuel L. Shoemaker in distributing funds made available by the Indian office some time ago. The petition states that Indians within a radius of fifty or seventy-five miles of Bluff have suffered from lack of water for several years past and need speedy relief.

Inasmuch as the Indian agent insists there is no unusual suffering the Indian office will take no further action at this time. It is admitted that there has been suffering among the Indians in that vicinity, but there is ample employment awaiting them if they are disposed to work, and the department is not favorably inclined to completely support those in a position to help themselves. The petition commends Senator Rawlins' efforts on behalf of the Indians. The senator merely asks that the requests be given consideration, making no recommendation.

that the requests be given consideration, making no recommendation.

The secretary of the interior today received a telegram from Governor Richards of Wyoming stating that furious forest fires are raging for many miles along the Wyoming-Colorado state line north of Pearl, Colo., and calling upon him to send assistance. The secretary finds that much public land is being damaged, and, realizing the importance of prompt action, accordingly authorized the local special agents to employ men to meet the emergency on the public land is prompt action. that the requests be given considerized the local special agents to employ men to meet the emergency on the public domain. The funds available for fire extinguishment are nearly depleted, owing to the frequency of fires this summer, but in view of the extent of this conflagration emergency funds will be used. The department says this condition should induce congress at the next session to make a liberal appropriation for fire extinguishment, as it had been sadly neglected heretofore.
